

Indianapolis Airport Authority

UNMANNED AIRCRAFT SYSTEMS (UAS)

OPERATION GUIDELINES

for within 5 miles of any IAA operated airport

GENERAL

- Commercial Operators are individuals or firms operating a UAS as part of any commercial venture or as part of providing professional services. 14 Code of Federal Regulations (CFR) Part 107 governs this activity. Please visit https://www.faa.gov/uas/getting_started/fly_for_work_business/ for more information.
- Recreational Operators are anything other than a commercial operation. Rules for recreational operations are located at: http://www.faa.gov/uas/publications/model_aircraft_operators/.

IAA GUIDELINES

- ALL OPERATORS must fill out the form before the UAS activity if within 5 miles of an IAA operated airport (IND, 2R2, EYE, UMP, MQJ, 8A4). It must then be emailed to operations@ind.com.
- ALL OPERATORS must contact local air traffic control (ATC) at (317) 227-5843 if any operator plans to carry out UAS activity within 5 miles of the Indianapolis International Airport (IND).
- If you have any questions, please contact Airport Operations at (317) 487-5023.
